## LINING OUT STOCK

## Fall or Spring Delivery

We grow an extensive amount of top quality lining out stock, primarily for our own requirements. We have the following list of "extras" to offer to the trade. None of this stock has been "pushed" for extra top growth at the expense of adequate root systems. We put extra effort into the production of stocky, tough plants that can "take it" when planted out.

# THE BERRYHILL NURSERY COMPANY

---

## TO THE TRADE:

Because of smaller field plantings of evergreens during the war over the whole nursery industry, there are even greater shortages of finished landscape plants this year than in prior seasons.

Nevertheless, we have new unbroken blocks of almost all of our evergreens for this fall, and we believe we can furnish early orders completely.

We urge you to anticipate your requirements as far in advance as possible, so that we may give you the best service possible.

The personal attention of at least one member of our firm will be given the selection and grading of each order.

We are always particularly glad to show you around the nursery in the early fall, while young blocks are unbroken and you can better appraise our inventory in the light of your future requirements. We are open 7:30 to 5:00; Saturday until noon; closed on Sunday.
